****ATTENTION****

This year, 2023, ADFS will transition instruments in the following counties from the Dräger Alcotest 7110 to the new breath-testing instrument, the Intox DMT Dual Sensor:

**Baldwin
Coffee
Madison
Marshall
Mobile
Jefferson**

If your agency is located in one of the above counties, you will need to schedule your personnel for a DMT new operator course. This applies to **every** agency in the county, regardless if the agency currently is or will be a future breath-testing site. The Intox DMT will replace the Dräger breath-testing instrument. When the transition takes place, **NO** Dräger instruments will remain in the county. With the implementation of the Intox DMT, we will be eliminating test sites. Not all current Dräger test sites will be future Intox DMT sites.

Due to limited seating, we ask that you only sign up those people that are necessary breath testing operators for your agency. In addition, we highly recommend that you **do not** sign up for Dräger new operator or recertification classes to allow those agencies not transitioning to the Intox DMT the opportunity to sign up for classes.

Please visit www.adfs.alabama.gov to register for an Intox DMT training course. **Intox DMT registration is not available through the ADFS Dräger training website.**

If you have any questions please contact Implied Consent at (205) 620-0399.
